

# General Information

## YRMC Lab

*Location*—YRMC Laboratory, both clinical and anatomical pathology, is located on the first floor of the West Wing of the hospital along the access corridor leading to the South Wing. It is across the corridor from Surgery and next to Radiology. The Morgue is adjacent to the ER area.

*Telephones*—All calls are made through the hospital four-digit system. Incoming calls must come through the hospital switchboard: (928) 344-2000 or direct at (928) 336-7245. Extensions are listed below:

| Lab                           | Extension | Direct Line    | Fax            |
|-------------------------------|-----------|----------------|----------------|
|                               |           |                |                |
| <b>Clinical Laboratory</b>    | 7245      |                | (928) 336-7336 |
| <b>Anatomic Pathology</b>     | 1144      |                | (928) 336-7319 |
| <b>Pathologists</b>           | 7019      | (928) 336-7444 |                |
| <b>Director of Laboratory</b> | 7343      |                | (928) 336-7336 |

*Telephones*—The laboratory provides coverage of certain emergency tests (see STAT list) on a 24 hour, 7 day/week basis. Since staffing is reduced on nights and weekends, this in turn, limits the amount and type of service available at those times. On weekdays, all new orders from 7 p.m. to 6:30a.m. to be collected and completed during this time must be ordered STAT. All work after 5 p.m. on Saturday and Sunday must be ordered STAT (exception-pre-operative patients). The following schedule is designed to provide laboratory service to all users consistent with technical personnel limitations and prudent economic consideration.
